|  | ANESA QUALITY POLICY | FPE02-6Cal |
| | | Edition: 1 Date: 06/2022 |

ANESA, a company dedicated to the extrusion of aluminium profiles, considers it essential to develop its activity meeting the expectations of all interested parties to position itself in a position of leadership and differentiation with respect to its competitors in the sector.

For this reason, ANESA's senior management establishes, implements, reviews and updates the following general principles for its quality management system:

- Periodically analyse the context of the organization to identify the interested parties, their requirements, expectations and the possible risks and opportunities associated with them and evaluate priorities to be established in the action plans that are considered to be undertaken at every moment
- Comply with the legislation and regulations related to quality that are applicable to our activity, as well as those that the organization subscribes to as its own or considers appropriate.
- Take into account the requirements and expectations of all interested parties and among them, seek the satisfaction and trust of our customers, ensuring the manufacturing of our products with the level of quality desired by them, complying with standards, codes and specifications required in each case.
- Establish staff training plans to ensure that the performance of the functions assigned to each of the ANESA workers, are carried out in the manner adequate to ensure quality in the development of the activity
- Define objectives and goals, in all areas of the management system, and carry out their assessment both to guarantee the effectiveness of the system implemented in ANESA, as well as to facilitate continuous improvement of the system. These objectives and the degree of achievement of the same, they will be communicated periodically to all staff

The ANESA Management is committed to distribute and ensure the understanding of this policy among all its workers, and among those who work on its behalf, as well as to review it, and keep it available for all interested parties who request it
